

Book Review

The author will summarize the content of the book read and offer a critique/review of it in a book review. The subject of the book is related to brain, language, and music. Authors should aim to provide a critical analysis of the book and not only a summary of it.

Here is a checklist of all elements that should be present in your manuscript:

- My manuscript is in layman terms and without scientific jargon explaining a book related to the CRBLM.
- My manuscript has references in APA Style.
- My manuscript is factual and does not contain biases nor my opinion.
- My manuscript summarizes the book without detailing every chapter.
- My manuscript includes a critique/review of the topic that reveals problems, contradictions, controversies, strengths, next steps, and potentials in the theories and research described in the book.
- My manuscript concludes by describing how the book contributes to the knowledge of the topic.
- My manuscript has between 500-1000 words.
- My manuscript is in Times New Roman 12-point font and double spaced
- Titles and subtitles in my manuscript are in **bold**.
- I used an active voice in my text and have proper grammar.
- ***The structure of my article is as follows:***
 - *Title* in **bold**
 - *Lead*: 5 to 8 sentences answering the 5Ws (Who, What, Where, When, Why)
 - *Section titles* in **bold** to introduce various aspects of my manuscript
 - *Body of your manuscript*: 2 to 4 paragraphs presenting the various aspects of my manuscript
 - *Conclusion*: Paragraph that sums up my manuscript
- I found at least one image to act as visual aid for my manuscript named according to the Author Instructions document.

- I have read and followed the Author Instructions document for more formatting details.

To submit:

In a zip folder in your email to crblmjournals@outlook.com, please include the following:

- Manuscript in accordance with guidelines of your type of submission in .doc or .docx format.
- All figures and tables named accordingly.
